SME Capital Grant funding

Horizons supports SMEs in the Liverpool City Region to improve their competitiveness and productivity.

As part of this programme we are offering Capital Grants towards digital transformation projects across all sectors, including manufacturing, life sciences, digital & creative and professional services.

The grants aim to support innovative projects that will drive efficiencies and growth. The application process is competitive, with all applications being independently assessed.

What can it be used for?

The grant is intended to fund innovative ideas and improvement projects that will transform your business, demonstrate growth potential, support a capable team, and/or address a challenge concerning operations that can boost business productivity.

How much?

The maximum grant request that we will fund is £25,000. This amount can be used as part contribution towards a larger improvement project.

Am I eligible?

Businesses must be a UK-registered SME with an innovative presence in the Liverpool City Region, trading for at least a year before the application date.

How do I apply?

To express your interest, email hello@lcrhorizons.co.uk and one of our partners will be in touch.

Restrictions

Grants can only be used to procure capital assets (tangible or intangible) in accordance with the Terms & Conditions.

Full T&C's can be found at lcrhorizons.co.uk/grant-terms
